WHY VISIONBOARDS
/MOODBOARDS

You probably heard about the left brain and right brain. So we wont dig into that.

You also probably know how less and less we get to do the non digital stuff these days: everything happens on Zoom, Insta, emails, maybe some swipes, etc. Basically a *lot* of screentime.

And you also probably know how magical can some analogical things be (right?!).

Interesting enough, the power of creating a visual maps/collages/boards is that as you build them, while browsing, looking at the things you like, you pick up on the things that attract you.

And, as the process evolves, it often gives clarity to thoughts and intentions that you hadn't really acknowledged before.

CREATING A MOODBOARD IS A POWERFUL WAY OF EXPLORING IDEAS, SETTING INTENTIONS AND GETTING CREATIVE, WHILE HAVING A GOOD TIME
